HEALTH IMPROVEMENT PROGRAM

Bradford White cares about your health and recognizes the importance of regular preventive care. Preventive care can help you catch small issues early, before they become larger health issues. The Bradford White Health Improvement Program helps you achieve and maintain a healthy lifestyle. The program is completely voluntary, however if you and/or your eligible spouse choose to participate, each program participant will receive a wellness credit.

Three Steps to Earn Your Credit

Step One

Complete the Wellness Screening & Empower Health Assessment

- The screenings will consist of measuring blood pressure, height, and weight as well as a venipuncture blood test. You will receive results at your screening a few days after the screening is completed on the Empower Health Portal.

Step Two

Meet three out of four Health Criteria:

- BMI below 30
- Glucose below 126
- Total Cholesterol below 240
- Blood Pressure below 140/90 (both numbers must be below target)

Step Three

Self report Nicotine Use.

If you complete the biometric and health assessment but do not pass, you will have until March 13th, 2026 to complete an alternative to receive the Wellness Incentive:

- If you reported that you are a nicotine user, you can complete a tobacco cessation program through Empower Health.
- If you did not achieve 3 or more results within the goal range for your biometric screening, you will need to visit your doctor and have them complete a form available on Bradford White's Empower Health Portal **or** complete an online Health Improvement Learning Program.

Wellness Credit

- For Traditional Plan or PPO Plan enrollees, any earned Wellness Credits will reduce per paycheck medical plan contributions.
- For HSA Plan enrollees, any earned wellness credits will be deposited into your Health Savings Account (HSA)

The tool will display your estimated out-of-pocket costs, provider details, and quality information about each provider, such as member reviews.

TELEMEDICINE

Did you know that you have access to telemedicine doctors who can provide 24/7 access to care through an e-visit phone or video consultation?

Telemedicine through **Teladoc** is a convenient way to see a doctor when you or your family members have a common medical condition and cannot get into your doctor's office.

There is no cost to you for this call in the PPO and Traditional Plans! In the HDHP, you will pay the cost of the visit until you hit your deductible, then it will be covered at no cost! If the doctor determines that a prescription is necessary, they will call it into the pharmacy of your choice. You will then use your Prescription card to pay for your medication.

FINDING THE RIGHT CARE AT THE RIGHT TIME

Accidents or sickness don't always strike during normal business hours. That is why it is important to know the appropriate place to access care outside of your Primary Care Physician's office. Having knowledge of these options will save you time and money when you have other things on your mind!

Care Option	Cost	Typical Hours	Best For
Telemedicine through Teladoc	**$**	24/7	Minor illnesses, follow-ups, prescriptions, cold symptoms
Primary Care	**$$**	Depends on provider	Preventive care, chronic condition management, non-urgent health issues
Urgent Care	**$$$**	Depends on provider	Sprains, minor fractures, infections, non-life-threatening issues
Emergency Room	**$$$$+**	24/7	Life-threatening emergencies, severe injuries, chest pain, difficulty breathing

QUICK TIPS

- If it's **life-threatening**, go to the **ER**.
- For **convenient, low-cost care**, try **telemedicine** first.
- Use **urgent care** for issues that need same-day attention but aren't emergencies.
- **Primary care** is ideal for long-term health management and routine checkups.

USING YOUR PRESCRIPTION PLAN

Make the Most of your Rx Plan!

Register for Your Navitus Portal

Visit www.membersportal.navitus.com/login or download the Navitus Mobile App.

- Find out if your drug is covered
- See possible drug interactions
- Locate an in-network pharmacy
- Access convenient tools to help lower your drug costs

Sign Up For Mail Order

If you take a medication every day to treat an ongoing health condition, home delivery may be a great option for you. It's easy, convenient, and it saves you money!

Your mail order pharmacy is available from NoviXus. You can sign up online through the Navitus portal.

Save Money on Prescriptions

Use the Cost Compare Tool

Login to your Navitus Member Portal to access a great tool to help you ensure you are paying the lowest cost for your medications.

- The Cost Compare tool can help you:
- Identify lower cost alternatives
- See suggested alternatives to your prescribed drugs
- Find participating network pharmacies

Opt for Generic Prescriptions

Talk to your doctor or pharmacist about trying a generic drug or ask about an alternative drug if the class of drug does not have a generic available. Generics contain the same active ingredients as the brand-name equivalent and may reduce your pharmacy expenses.

If you purchase a brand-name prescription when there is a generic equivalent available, you will pay the brand copay plus the difference in cost between the brand name and the generic.

Copay Assistance Program

Access Guidance Services helps eligible members lower the cost of certain prescription drugs by using manufacturer copay assistance, like coupons or discount cards. Working with Navitus, the program identifies qualifying drugs and helps you enroll in assistance programs. Your cost may be reduced to $0, a lower amount, or your plan's standard rate. Only the money you pay yourself counts toward your deductible or out-of-pocket maximum. If assistance runs out or the drug doesn't qualify, you'll pay your plan's regular copay or coinsurance.

Navitus will contact you if you are taking an eligible prescription.

HEALTH SAVINGS ACCOUNT

If you are enrolled in the HSA Plan, you can set aside money in a tax-free HSA account to pay your eligible out-of-pocket healthcare expenses including medical, dental, vision and prescriptions. Any money left over in your HSA remains yours, allowing you to grow your funds over time.

	Bradford White Contributes Up To..	You Can Contribute...	Annual IRS Maximum	Catch-Up Contribution
Single	$1,560	$2,840	$4,400	$1,000

Bradford White will contribute up to $130 per month for single coverage and up to $260 per month for family coverage to your HSA if you participate in the wellness program.

Your account, your money!

- **Use it today or save for tomorrow.** Your HSA is your own account; you own it and you decide how to make the most of it.
- **Get triple tax advantages.** Not only do you contribute pre-tax money, but your HSA can grow tax-free, and you can pay for eligible health care expenses tax-free.

- **Adjust as needed.** If you choose, contributions are automatically deducted from your paycheck. You can change or stop contributions at any time.

Employee Monthly Costs per $1,000 of coverage

Under 25	$0.05	50—54	$0.46
25—29	$0.05	55—59	$0.81

45—49	$0.29	75+	$2.10

How to Calculate Your Premium and Per-Pay Deduction

- Monthly Premium= (Coverage Amount) / 1,000 X Rate
